Git & PR workflow
Automated testing (pytest, GUT)
CI/CD (GitHub Actions)
AI-augmented method (spec → plan → test → audit)

CREATIVE & CONTENT

Video editing (DaVinci Resolve)
AI content & prompting
Localization in 9 languages
Social publishing

LANGUAGES

Italian — native
English — professional working proficiency

AVAILABILITY

Immediate — full-time
Italy and abroad
On-site / hybrid / remote

SUMMARY

Junior software developer with an AI-augmented workflow — spec, generate, test, audit; the architecture decisions are mine. Six public repositories back every line of this CV, from a binary-format parser to a server-authoritative multiplayer game.

\$ 6 public repositories · ~30k LOC · 2.6k test lines · 9 ADR

EXPERIENCE

Labelbike — Creative & AI ContentOct 2025 - Jun 2026

- Ran the creative/social content pipeline with real delegation, not shadowing.
- Produced and published 6 YouTube videos end-to-end (script, edit, AI-assisted production).
- Localized content into 9 languages via an AI-agent pipeline.
- Supported internal development work in Java, C++, SQL.

Optima — Business Sales ConsultantMay 2024 - Jul 2025

- Sold telecom/utility services to business and private clients (freelance).
- Managed a client portfolio autonomously — prospecting, negotiation, retention.

EDUCATION

Technical diploma, Computer Science — Ist. S. D'ArzoJul 2025

IFTS Creative & AI — 50% classroom, 50% at LabelbikeOct 2025 - Jun 2026

SELECTED PROJECTS

eu4-assistantPython · PyQt6 · CV
Custom recursive-descent parser for a proprietary binary format · 2.6k test lines (0.62 ratio).

BleaBoxLuau --!strict · Roblox
Server-authoritative anti-exploit architecture · 9 ADRs, ~8.7k lines.

claude-dashboardElectron 33 · React 19 · TS 5.7
Desktop cockpit for Claude Code — streams 15MB JSONL logs with virtualization.

VOXELGENGodot 4 · C#
Realtime deformable voxel engine · -65% chunk regen time (measured).
